

Let's Celebrate Earth Day!

Saturday, April 19th at 10:00 am
Floresville Early Childhood
Campus

The Tiny Tigers PTA invites you and your family to attend our Earth Day Celebration. We will be planting trees in the playground area at the Early Childhood Campus (ECC).

Did you know that one tree can absorb a significant amount of carbon dioxide that is released into the air by burning fossil fuels such as gasoline?

Earth Day, which is celebrated annually on April 22nd, is a special day to learn about our planet and how to take care of it. So, get your gloves, hats, sunscreen, shovels, and wheelbarrows (if you have them) and come out to the Early Childhood Campus. Bring the whole family, there will be drinks and snacks and maybe a few surprise guests for the kids! This is a perfect way to get the kids involved and show them how to care for our planet.

“Think globally, act locally”
